

# Is Metal Additive 3D Printing the future for your business?

## Visit CSIRO Melbourne's 3D printing facilities (Lab22), meet the experts and learn more!

SME CONNECT

**CSIRO are providing Australian companies with access to metal additive manufacturing (3D printing) technologies that promise high efficiency and productivity gains for a competitive advantage.**

### Lab22

The new \$6 million additive manufacturing centre, called Lab 22, is making metal additive manufacturing more accessible for industry and increasing its adoption across Australia.

Located at Clayton, Victoria, Lab 22 offers Australian companies with a unique opportunity to access and explore new technologies so that they can innovate with less capital investment risk.

Our experts work closely with companies on cost-effective solutions, catering to a wide spectrum of requirements, such as increasing the speed, performance and affordability of technologies. We are able to capture 3D data and simulate both the manufacturing process and in-service part performance. Our designers can turn a new design idea into a testable prototype within a week.

### Visit Lab22

We are seeking Newcastle, Hunter and Central Coast businesses interested in developing their 3D printing ideas, to participate in a tour of Lab22 including one-on-one meetings with CSIRO experts.

Interested parties should provide a short outline of their specific area of interest or idea they have in utilising 3D additive technology in their business.

### Details

This visit to Lab22 is in conjunction with HunterNet. Numbers are limited to 10 participating companies.

When: Wednesday 22nd June 2016  
Time: 12pm to 4.30pm (lunch included)  
Where: Lab22, CSIRO Research Way  
Clayton Vic 3168

Cost to attend: \$120 payable to HunterNet via Stickytickets.

<https://www.stickytickets.com.au/38576>

All associated travel and accommodation costs will be at the company's own expense.

### Contact and Registration

Please email your expression of interest by the **10<sup>th</sup> June** to either:
